## *"The Coin Machines Merry-Go-Round"*

***By Bill Gersh***

COOPERATION

We believe "cooperation" is one of the most powerful words in the English language. All success is based upon cooperation. Wars are won today by complete cooperation of all land, sea and air forces. Only by cooperation can we, as an industry, continue on successfully thru these trying times. Now, while we are a smaller unit, while this industry has become highly concentrated and the fly-by-night-chaff has gone, can we, those of us, who are really interested in the successful continuance of this business, get together and assure ourselves a better future. And this can only be accomplished by cooperation. Cooperation now means assurance of continued good business tomorrow. Keeping close together. Understanding and helping each other. Trying our best, not only for ourselves, but also for our fellow coinmen, means that we will build up a nucleus in this industry that will be its guiding light when the war is over.

Cooperation now is more than ever necessary for the continued good welfare of all concerned with this industry. The Petrillo affair is a very pointed example.Were there in existence an executive group representing all the nation's phono men they could have worked with Petrillo from the day he announced his ban and have ended it a great deal sooner. Even when the ban on the manufacture of records is removed it will still be most necessary to have a real organization of the industry's automatic music men, for only in that way will these men be assured of justice in every regard to any deal that will be negotiated with the AFM. The same is true of other divisions of this industry. They, too, need some sort of executive group that will help them when national problems arise. Local problems can be handled locally. But every day Washington digs deeper into all business for revenue. Cooperation now means eliminating a great many headaches.

We do hope most fervently that this small voice in the great spaces of our industry will be harkened to by the leaders of this trade who are today the subscribers to The Cash Box. For they, and they alone, by concerted action, can bring about the necessary cooperation from all the elements composing this industry.

65 MILLION WORKERS

The other day we had the pleasure of listening to one of the regional directors of WMC (War Manpower Commission) speak on what this government unit is planning for the country generally. One of the big points brought out in his well censored speech was the fact that by the end of the year WMC plans on having 65,000,000 people at work. That means 1 out of every 2 persons in these United States. It means, too, that coinmen can look forward to the greatest play action in all the history of this industry. Remember that there are already over 15,000,000 women at work. It is believed by WMC that the number of women workers will far overshadow the men. Once again we urge you, as we have in many past issues, to cater to the woman player. It has long since been learned by a great many coinmen that our American women are even greater "sports" than our men and hardier individuals when it comes to giving up a dollar or two while having a good time. We don't mean that you'll have to decorate your games with frilly lace or nylon stockings - just keep them in spots where they will attract women patronage.

THE RETAILER

In many past issues we have discussed the condition of the retailers thruout the U.S. We feel this to be extremely important to coinmen because they are so closely linked to the fortunes of the retailers - their locations. At the present time retail business is beginning to suffer the first pinches we predicted in our New Year Special issue. This will become more acute as '43 nears its end. At the same time it will definitely swing the retailer to need for revenue from other than his regular line of business. We have already heard from noted coinmen that retailers have gone to bat for them with city officials on certain types of equipment formerly frowned upon by these same officials. With the retailer up there arguing and backed to some extent by his retailers' organization, games will be allowed to operate. More and more retailers thruout the country are getting their dander up to the point where they are now willing to battle for revenue producing coin operated equipment.

"THE CASH BOX BREAKFAST CLUB"

One of our enthusiastic subscribers came along with a suggestion which we are going to pass on to you for whatever you think it's worth. His suggestion was that we start "The Cash Box Breakfast Club" to meet in various cities a few times during the year and over a cup of coffee discuss our business. He points to the many similar breakfast

## "The Coin Machines Merry-Go-Round"

clubs in vogue thruout the country. He also explains that he is a member of a local club of this nature. "How about 'The Cash Box Breakfast Club' meeting in Chicago on March 15 for a cup of coffee?" this subscriber asks. (What do you think?)

"PAT-ON-THE-BACK-DEPT."

Nice letters this past week from Joe Calcutt of The Vending Machine Company, Fayetteville, N.C. and from Hal L. March of Brattleboro, Vt. that were loud and resounding pats-on-the-back. But, the letter from Burr C. Moler of Palisade Specialties Co., Cliffside Park, N.J. struck us as being about all three combined. Burr writes, "Can't let this week go by without another verbal pat on the back to the many The Cash Box has already received. Our last ad got plenty of action. In fact, you took us right out of the sellers class and made buyers out of us. We could have sold the lot we advertised a half dozen times so great was the demand. Thanks a million." (Palisade Specialties Co. refer to the extra space ad used in our Feb. 16 issue).

C.P.L. QUARTERLY REVIEW IN "SPRING SPECIAL"

You probably noticed, beginning with last week's issue, that each sheet of The Confidential Price Lists now bears the statement,"These prices in effect for this week only", and also, "Check former lists to average high and low prices on this equipment". In this way we believe we eliminate much confusion and have clarified the purpose of weekly issue of The Confidential Price Lists. Prices change radically each and every week on certain equipment. On other machines months may go by before any price changes appear. (In this latter instance The Confidential Price Lists maintain the last known quotations so that there is some basis for price judgment).

The idea for labelling each sheet of The Confidential Price Lists as for the current week only was proposed by George Ponser of Newark, N.J. and New York City. We not only accepted this suggestion with alacrity but we believe that George's further idea of a quarter yearly review of lowest and highest prices along the current prices of the week when the review appears will prove extremely beneficial to all concerned.

Therefore, beginning with our March 30 issue we will have our first Quarterly Review. This will also be our "Spring Special" issue. It will be an issue of great importance for all the trade. It will show the complete swing of the price pendulum for the first quarter of '43. It will give you some idea of how prices ranged since Jan. 1st. It will also prepare you for further price fluctuations for the following quarter. There will also be a complete general business review and "Market Report" along with "predictions of things to come" as appeared (and made such a hit) in our New Year Special issue. We suggest you anticipate the "Spring Special" issue and prepare now for the ad you will want to appear therein.

NEW YORK STATE TAX BILL

Reported by us sometime ago is the bill that calls for $100. per year for any machine featuring a 10¢ or over coin chute before the state legislature in Albany, N. Y. Seeking information this past week we didn't come across anyone who knew of someone at work on this bill to either prevent its passage or get a modified ruling. We do hope, tho, that it is being carefully watched by the cigarette and phono associations. (We know that the attorney for the A.O.A. (Arcade Owners Ass'n.) is investigating it). This bill, which seems to pop up every year, is but an indication of what is in the minds of various state legislatures in their attempt to raise revenue.

REVAMP DEMAND GROWS

The demand for revamps continues to grow. In the 5-Ball field revamps are booming at the present time. The revampers are doing a splendid job and are helping tremendously to continue successful operations. Many surprises can be expected from these men as they get loosened up and go more deeply into the field of work they have chosen.
